XIII. Confirmation of learning outcomes through evaluation

1. There is a progressive and definitive assessment.

2. Developing assessment can be achieved using the scores and deductive principles.
3. The definitive assessment encompasses the sue of the system based on the principles of deduction (based on the competence) and follows the following two types of assessment:
 - A) The results of the study have been confirmed;
 - B) Learning outcome has not been confirmed;
4. In case of receiving negative result in determining assessment, a vocational student has the right to request an additional assessment of the learning outcomes before completing the programme.
5. Assessment directions and alternative list of assessment instruments are given in proper modules.

XIV. Awarding the professional qualification:

Professional qualification is awarded by the Shota Meskhia State Teaching University of Zugdidi. The Rector of the Teaching University issues individual administrative-legal act. In order to gain professional qualifications, vocational student must collect credits provided by all the general and professional compulsory modules, as well as 8 credits from selective professional modules.

XV. Teaching of disable students and students with special educational needs

The prerequisites for access to modules shall not apply to the disable people and people with special educational need. Credits determined by the programmes shall be assigned to the person only in case of confirmation of the relevant learning outcomes. The qualification is awarded under the rule in article 13.
